

Techiman Holy Family Hospital Is 60 Years Hurray!!!

The Holy Family Hospital, Techiman was established by the Medical Missions Sisters. It all began in 1953 when three founding elders of the St. Paul Cathedral visited the then Catholic bishop of Kumasi- Bishop Hubert Paulissen to express their desire for a hospital in Techiman. The Bishop promised to solicit for funding for the project, and further redirected them to the Rev. Sr. Laetitia Fliegera, Medical Mission Sister, who was helping in the construction of the building of the Berekum Holy Family Hospital for further discussion

The efforts of the church elders were supported by the Techiman Traditional Council when techimanhene- Nana Akumfi Ameyaw III made a personal donation of twenty thousand Ponds towards the project

In October 1953, approval was received from the Ministry of Health for construction of the hospital to begin.

Ownership of the hospital was transferred by the Medical Mission Sisters to the Catholic Diocese of Sunyani in December 1977. Upon the creation of the Techiman Diocese out of Sunyani, the Hospital was further handed over to the Diocese of Techiman in 2008. From its humble beginnings in 1954, the hospital has grown and developed to become the Municipal hospital for Techiman Municipality, serving as the referral health facility for Techiman municipality and other parts of the region and beyond.

Today, we proudly offer Quality Specialist Services in Urology, Internal Medicine, OBGY, Surgery, ENT, Paeds and General Surgery and Dentistry.

We thank God for thus far. We look forward more resolute to fulfilling our mandate, whiles recognising the emerging challenges. We count on the unflinching support of all Stake Holders in our quest to bring quality health care to our people
